ABOUT *merino group*

The Merino Group is a leading player in the laminates and panel industry. The first product was plywood, launched in 1974 and later it spread its wings into high-pressure decorative laminates in 1981. The Group has diverse business interests expanding into Interior Architectural Products, Information Technology and Food & Agro business. Over 4000 employees, 5 production units and multiple allied surface solutions having endless design possibilities are what ensure a consistent range of superior quality products and the Group's continuous significant growth in the challenging market scenario. With innovation and perfection at its core, Merino commits to the highest manufacturing standards with a strong customer support.

introducing harmony

Harmony is a range of coordinated surfaces comprising parched, authentic and natural designs. The surfaces primarily feature matt or textured linear finish to add to the natural look and feel. The colour palette is heavily influenced by black, grey and beige.

THE EBONY SERIES

The Ebony Series stands for perseverance. The weathered look is reminiscent of that. The prominent streak texture symbolizes nature's chutzpah while the counterflowing fauna adds personality to the weathered look.

THE OAK ENSEMBLE

The design captures the beauty that lies in austerity. The faults, cracks and leaching of this stained oak show signs of natural wear and tear. The random appearance of the original color adds class to the design.

THE PINE COLLECTION

The Pine Collection stands for serenity. The Swiss Stone Pine with grains are as clear as a mountain stream. The multifaceted play of color with knots as contrast points deliver a calming aura to the surface. It's ideal for large furniture fronts.

THE TROPICAL MEDLEY

The Tropical Medley stands for warmth. Inspired from the plants that thrive in tropical regions, this collection features exotic wood patterns blended in European style.

The presence of cut flowers and light-dark variations, the range breaks the monotony of a space.

THE FIFTH HARMONY

The fifth harmony is a fusion of nature's several visual melodies. On one hand, they are reminiscent of Japanese minimalism, and on the other hand they showcase Nordic influence. The discerning variety is characterized by what it's made of—delicate and simple Kraftwood.
