awan

Perfectly matched for unmatched elegance

PREMIUM SOLUTIONS FOR DOORS

About Merino

Since 1967, the journey of Merino has been an extraordinary tale of evolution. Beginning with the humble plywood, the group has constantly introduced new products based on top-of-the-line raw materials, production and technology to achieve the podium on which it stands today. As one of the world's largest manufacturers of decorative laminates, the Merino group is globally recognised as leader in the industry of laminates and surface solutions.

Products, technologies and techniques may have evolved but one thing is always constant – focus on quality and the zeal to bring world-class surface solutions for our customers. Today Merino Group has a beautifully strong presence in over 80 countries with an annual turnover of over 245 million USD with diverse business interests that expand from Interior Architectural products to Information Technology to Food & Agro products.

awan

Perfectly matched for unmatched elegance

The word 'Awan' comes from the Sanskrit word 'Aahwaan' which means 'Invitation' or 'To beckon'. It is an invocation that signals divinity and makes your doorways inviting, not just for people, but also towards positivity.

The Awan Elements

Awan door skins & frames from the house of Merino have three key components that combine to form Awan door solutions – Architrave, Jamb, and Stopper. Each of them is carefully picked and tested to provide co-ordinated and comprehensive product performance.

Our Architraves are available in **Ogee** - a classic English style that's timeless; **Torus** - a traditional style that exudes strength; and **Bullnose** - a modern design that complements clean and spacious interiors.

These components can be bought with the frame or separately which means one has limitless possibilities while creating a door solution that suits them best and blends with the aesthetics of their home.

Characteristics of Awan

Best-in-class matching door frame design

The door frame and door skin blend with a harmony that is exclusive to AWAN

Availability in a variety of sizes

Awan door solutions provide door skins in a variety of sizes that are customized to suit your various business needs

Awan unifies the design language of both the door frame and the door skin with limitless possibilities. Merino takes great care to ensure co-ordinated and comprehensive product performance. This is why it is the perfect choice for architects, interior designers, as well as door manufacturers.

The Awan Factor

Awan from the house of Merino has the perfect combination of strength and modernity.

Our state-of-the-art manufacturing facilities and advanced technology ensures that our laminates are consistent and flawless, as well as crafted according to your preference.

Perfect Match – Frame, Door Laminate & Edge Band

A matching frame, laminate & edge band help you remodel your interiors according to your choice and requirements.

Available in a plethora of sizes

Available in various sizes for every door frame and laminate requirement.

Numerous Design Options

You get to choose from numerous contemporary solid and woodgrain designs according to your preference.

Quality Above All

Every frame and laminate is manufactured in the state-of-the-art facility while going through numerous quality checks to come up with remarkable quality and consistency.

Global Certification

Our exceptional manufacturing process has been rewarded certifications including, ISO 9001, ISO 14001 and ISO 45001 for all facilities.

The Awan Choice

Awan door solutions is the ideal choice for all your door and surfacing needs. This collection has diverse designs that can provide elegant decors for doors, in woodgrain as well as solid colour. Awan gives you the best of both worlds, offering economical as well as aesthetic benefits which help in enhancing the door aesthetics while minimizing wastage.

Created with modern technology and in-vogue designs, the range offers an aesthetic for every taste while minimising maintenance.

Awan is a cost-effective and durable alternative to solid timber, veneer or painted surfaces.
